Toronto, ON: House of Not will perform at the Rivoli / Back Room on February 23, 2006 to celebrate the launch of their second album 'Sexus' in Canada. Led by frontman, poet/songwriter, Brian Erikson, House of Not will perform songs from their debut album "Off the Path" and their new release 'Sexus', the second instalment in '**The Walkabout**' - a rock odyssey. Doors open at 8:30 pm. for a 9:30 show. Tickets are \$7 in advance at [www.houseofnot.com](http://www.houseofnot.com) or at the door.

Already released in Europe, 'Sexus' and 'Off the Path' - Part II and I of 'The Walkabout' respectively - have been described as "probably one of the most exciting stories told in musical form since 'Tommy' and 'The Wall'" (Home of Rock, Germany). Music in Belgium commented: "'Sexus ... demonstrates great sensitivity and exceptional creativity'" and Harmonie Magazine (France) stated "'Sexus... is an R&B, soul, rock mix orientation ... where the masculine / feminine vocal duality offers us superb moments'". Ragazzi Music (Germany) commented "'Sexus' is a great rock album ... well done, entertaining and - it rocks!"

As 'The Walkabout' project expands with Part II, House of Not delivers their unique signature sound that transcends musical genres from classic, melodic, progressive rock to R&B, soul and blues. Susan Smythe, founder of FreakStreet Productions comments: "These two albums by House of Not demonstrate a willingness to take risks - to bring originality, creativity and a daring freshness to the international music scene and the world of storytelling." Smythe quotes a line from a recent Italian review (Arlequins.it): "I invite you, the reader, to discover this new and exciting world of music that has been so boldly created by House of Not".

'Sexus' was recorded with special guests: Dione Taylor - 2005 Juno nominee for Best Vocal Jazz Album; award winning vocalist Dee Brown and Dave Henman of April Wine fame. 'Sexus' was recently listed as one of the top 20 progressive rock releases in 2005 by ProgressiveWorld.net, a leading U.S. progressive rock website and Eclipsed Magazine (Germany) described the album as "without exception, well done melodic rock".
